## BOOKING NUMBERS

The scheduling of these training programs will depend on there being sufficient bookings in each module. A minimum of 12 students is required to guarantee the scheduling of any module (maximum of 24 registrations). We know participants learn a great deal from networking with others during the program. We also require a minimum number of participants to demonstrate the techniques and take part in the role plays and exercises. We do not want to compromise learning by having groups that are too small or too large for effective learning to take place. Numbers are limited to a maximum of 24 participants for any module. This is an IAP2 requirement.
